

**ASSE Certified 5100 Series
BACKFLOW PREVENTER ASSEMBLY
LICENSED PLUMBERS & TESTERS**

To our water customers: this list is for your convenience only. You are not restricted to these companies if you have another option (alternates are required to have an ASSE 5100 series backflow tester's certification).

Please note: testers can only test the backflow assemblies, not repair or replace. Any maintenance or repairs must be done by a licensed plumber with the ASSE 5100 series tester certificate.
